

UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED DECEMBER 31, 2024 & 2023

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim consolidated financial statements of Argentum Silver Corporation (the "Company") are the responsibility of the management and Board of Directors of the Company.

The unaudited interim consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited interim consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the unaudited interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 Interim Financial Reporting of IFRS Accounting Standards using accounting policies consistent with IFRS Accounting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the unaudited interim consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Notes to the Unaudited Interim Consolidated Financial Statements
For the three and six months ended December 31, 2024 and 2023
(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Argentum Silver Corp. (“Argentum”, the “Company”) was incorporated as Silex Ventures Ltd. under the Business Corporations Act (*British Columbia*) on March 21, 2007. Argentum engages in the acquisition, exploration and development of mineral properties. The Company is in the exploration stage and has not yet determined whether any of its properties contain economically recoverable ore reserves.

The Company’s head office and principal place of business is Suite 401 - 217 Queen Street West, Toronto, ON, M5V 0R2.

Its principal business activity is mineral exploration and evaluation in Canada and Peru (see Note 9).

As at December 31, 2024, the Company had working capital of \$13,062 (June 30, 2024 - \$134,163), had not yet achieved profitable operations, had an accumulated deficit of \$14,654,279 (June 30, 2024 - \$14,524,137) and expects to incur further losses in the development of its business.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, and the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis, all of which are uncertain. Failure to achieve the above could have a significant impact on the Company’s ability to continue as a going concern.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and evaluation activities, and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, non-compliance with regulatory requirements or aboriginal land claims.

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), applicable to a going concern, which assumes that the Company will be able to meet its obligations. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At December 31, 2024, the Company had no source of operating revenues, had not yet achieved profitable operations, expects to incur further losses in the development of its business, all of which casts significant doubt about the Company’s ability to continue as a going concern.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events and potential economic global challenges, such as the risk of higher inflation and energy crises, may create further uncertainty with respect to the prospects of the Company’s business.

2. BASIS OF PREPARATION

2.1 Statement of compliance and presentation

These unaudited interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with the IFRS Accounting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”).

These unaudited interim consolidated financial statements were authorized by the Board of Directors of the Company on February 26, 2025.

2.2 Basis of measurement

These unaudited interim consolidated financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company’s June 30, 2024, annual financial statements.

2.3 Principles of Consolidation

These unaudited interim consolidated financial statements for the six-month periods ended December 31, 2024 and 2023 include the financial position, financial performance and cash flows of the Company and its subsidiaries detailed below:

| | | 2024 | 2023 | |
|--------------------------------|---------------------------------|--------------------------|--------------------------|----------------------------|
| Subsidiaries | Country of Incorporation | Economic Interest | Economic Interest | Basis of Accounting |
| Norsemont II Resources SAC | Peru | 100% | 100% | Full consolidation |
| Argentum Peru Holdings Limited | Canada | 100% | 100% | Full consolidation |

2.4 Use of management estimates, judgments and measurement uncertainty

The preparation of these consolidated financial statements using accounting policies consistent with IFRS requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Such estimates primarily relate to unsettled transactions and events as at the date of the consolidated financial statements. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue and expenses.

Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions. Significant estimates and judgments made by management in the preparation of these consolidated financial statements are outlined below:

Going concern assumption

Going concern presentation of the consolidated financial statements assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due.

ARGENTUM SILVER CORP.
Notes to the Unaudited Interim Consolidated Financial Statements
For the three and six months ended December 31, 2024 and 2023
(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

2.4 Use of management estimates, judgments and measurement uncertainty (continued)

Decommissioning provisions

These are made based on the estimated settlement amounts. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed quarterly and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions on a quarterly basis. Actual rehabilitation costs will ultimately depend on actual future settlement amount for the rehabilitation costs which will reflect the market condition at the time that the rehabilitation costs are actually incurred. The final cost of the currently recognized rehabilitation provisions may be higher or lower than currently provided for.

Functional currency

The Company's management is required to make judgments as to the currency of the primary economic environment in which an entity operates to determine the functional currency of the entity. The Company has determined that the functional currency of the Company is the Canadian dollar, and the functional currency of the subsidiaries is the US Dollar.

Calculation of share-based payments

The Black-Scholes option pricing model is used to determine the fair value for share-based payments and warrants and utilizes subjective assumptions such as expected price volatility and expected life of the option. Discrepancies in these input assumptions can significantly affect the fair value estimate.

3. FINANCIAL RISK FACTORS

Credit Risk

The Company's credit risk is primarily attributable to cash. The Company has no significant concentration of credit risk arising from operations. The Company's current policy is to invest excess cash in interest-bearing deposits issued by its banking institutions. The Company's maximum exposure to credit risk as at December 31, 2024, is the carrying value of cash, and trade and other receivables. The majority of the Company's cash is held in Canadian chartered banks.

Market Risk

Foreign Currency Risk

The Company's exploration and evaluation activities are in Canadian dollars and Peruvian Nuevo Soles. The Company's funds are predominantly kept in Canadian dollars, with a major Canadian financial institution. The Company has minimum foreign currency risk.

Fair Value

The carrying value of cash, trade and other receivables, marketable securities and accounts payable and accrued liabilities approximates fair value due to their short-term nature. Marketable securities are included under level one of the fair value hierarchy.

The fair value hierarchy has the following levels:

- Level one includes quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level two includes inputs that are observable other than quoted prices included in level one
- Level three includes inputs that are not based on observable market data.

Notes to the Unaudited Interim Consolidated Financial Statements
For the three and six months ended December 31, 2024 and 2023
(Expressed in Canadian dollars)

3. FINANCIAL RISK FACTORS (continued)

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at December 31, 2024, the Company had current assets of \$120,860 (June 30, 2024 - \$243,455) and current liabilities of \$107,798 (June 30, 2024 - \$109,292). The Company's accounts payable and accrued liabilities and receivables are subject to normal trade terms. As at December 31, 2024, the Company had working capital of \$13,062 (June 30, 2024 - \$134,163).

Interest Rate Risk

The Company is not exposed to interest rate risk due to the short-term nature of its financial instruments.

Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over the next 12-month period:

- (i) Interest rate risk is limited to cash balances, primarily held in Canadian and US dollars in Canada and Peru.
- (ii) The Company's subsidiaries hold financial assets and liabilities in US dollars and Peruvian Nuevo Soles that give rise to foreign exchange risk. If the US dollar rose or fell in relation to the Canadian dollar by 5% with all other variables held constant, net loss for the six-month period ended December 31, 2024 would have been approximately \$1,000 higher/lower. If the Peruvian Nuevo Sol rose or fell in relation to the Canadian dollar by 5% with all other variables held constant, accumulated other comprehensive loss for the six-month period ended December 31, 2024 would have been approximately \$100 higher/lower.

4. CASH

The balance at December 31, 2024, consists of cash on deposit with banks in Canada and Peru in general accounts totaling \$100,662 (June 30, 2024 - \$204,395 cash).

5. MARKETABLE SECURITIES

As at December 31, 2024, the Company holds nil shares of Ares Strategic Mining Inc. valued at \$nil (June 30, 2024 - 83,500 shares with value of \$12,525).

During the six-month period ended December 31, 2024, the Company sold 83,500 shares of Ares Strategic Mining Inc. for proceeds of \$12,937 resulting in a realized loss on disposal of marketable securities of \$24,052 for the six-month period ended December 31, 2024. The Company recognized an unrealized gain of \$24,464 (2023 - \$18,274 loss) representing the reversal of previously recognized unrealized losses.

ARGENTUM SILVER CORP.
Notes to the Unaudited Interim Consolidated Financial Statements
For the three and six months ended December 31, 2024 and 2023

6. TRADE AND OTHER RECEIVABLES

The Company's trade and other receivables arise from sales tax ("GST/HST") due from the Canadian government.

| | As at, | |
|--|----------------------|------------------|
| | December 31, 2024 | June 30, 2024 |
| GST/HST receivable | \$ 14,322 | \$ 17,067 |
| Total trade and other receivables | \$ 14,322 | \$ 17,067 |

At December 31, 2024, the Company anticipates full recovery of these amounts and therefore no impairment has been recorded against these receivables.

8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The accounts payable and accrued liabilities of the Company consist of the following:

| | As at, | |
|---|----------------------|-------------------|
| | December 31, 2024 | June 30, 2024 |
| Accounts payable | \$ 62,798 | \$ 79,292 |
| Accrued liabilities | 45,000 | 30,000 |
| Total accounts payable and accrued liabilities | \$ 107,798 | \$ 109,292 |

Trade payables of the Company are principally comprised of amounts outstanding for trade purchases relating to exploration activities and amounts payable for operating and financing activities. The usual credit period allowed for trade purchases is between 30 to 90 days.

9. EXPLORATION AND EVALUATION EXPENDITURES

Exploration and evaluation asset expenditures during the six-month periods ended December 31, 2024 and 2023, by nature are detailed as follows:

| | 2024 | 2023 |
|--------------------------|-----------------|------------------|

11. SHARE CAPITAL (continued)

Share-Based Payments

The Company has a rolling stock option plan (the “Plan”) under which it is authorized to grant options to directors, officers, consultants and employees of the Company. The number of options granted under the Plan is limited to 10% in the aggregate of the number of issued and outstanding common shares of the Company at the date of the grant of the options. The exercise price of options granted under the Plan may not be less than the closing price of the Company’s common shares on the TSX-V on the trading day immediately before the date the options are granted, less the discount permitted under the TSX-V’s policies. Options granted under the Plan have a maximum life of ten years and vest according to conditions set by the Company’s board of directors at the time the options are granted.

As at December 31, 2024, the Company had 1,359,854 (June 30, 2024 – 1,359,854) options available for issuance under the Plan.

A summary of stock option activity is as follows:

12. COMMITMENTS AND CONTINGENCIES

The Company's activities are subject to environmental regulation (including regular environmental impact assessments and permitting) in the jurisdiction in which its mineral properties are located. Such regulations cover a wide variety of matters including, without limitation, prevention of waste, pollution and protection of the environment, labour relations and worker safety. The Company may also be subject under such regulations to clean-up costs and liability for toxic or hazardous substances which may exist on or under any of its properties or which may be produced as a result of its operations. It is likely that environmental legislation and permitting will evolve in a manner which will require stricter standards and enforcement. This may include increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a higher degree of responsibility for companies, their directors, and employees.

The Company has recorded provision for such costs as described in note 14.

13. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and evaluation of mineral properties. The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital to include all components of shareholders' equity. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the six-month period ended December 31, 2024.

The Company considers its capital to be equity, which is comprised of share capital, reserves and accumulated deficit, which as at December 31, 2024, totaled a deficit \$77,617 (June 30, 2024 – \$48,053 equity).

The Company's objective when managing capital is to obtain adequate levels of funding to support its exploration activities, to obtain corporate and administrative functions necessary to support organizational functioning and to obtain sufficient funding to further the identification of mineral deposits.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSXV which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months.

The Company raises capital, as necessary, to meet its needs and take advantage of perceived opportunities and, therefore, does not have a numerical target for its capital structure. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurance that the Company will be able to continue raising equity capital in this manner.

The Company invests all capital that is surplus to its immediate operational needs in interest bearing accounts with a Canadian financial institution.

14. PROVISION FOR SITE RECLAMATION AND CLOSURE

The Company's determination of the environmental rehabilitation provision arising from its activities at the Cochavara project at December 31, 2024, was \$101,643 (USD \$72,000) (June 30, 2024: \$98,546 (USD \$72,000)). The Company is not able to reliably estimate the timing of the rehabilitation activities at this time, and as such considers the present value of the provision at December 31, 2024, to be equal to the total future undiscounted cash flows to settle the provision for reclamation, being \$101,643 (USD \$72,000) (June 30, 2024: \$98,546 (USD \$72,000)).
